Bachelor of Technology in Computer Science — June 2025
Aggregate CGPA: 8.02 / 10
- The St. Xavier's School
ISC (12th) – 91 % of 2021

PROJECTS

Rental — Enterprise-Grade Real Estate Application | [Live](#)

— June 2025

Built a scalable Next.js rental marketplace with interactive Mapbox maps, advanced property filters for most relevant result, favourites, interactive dashboards, and individual property pages, backed by Node backend handling leases, applications, payments, and profile management for both tenant & managers portal seamlessly, finally deployed on AWS with Cognito authentication.

Noted — Minimal Note Taking with Reminder System | [Live](#)

— Present

Noted is a fast, mobile-first note-taking app cached with Redis build with Next frontend & Node backend, featuring quick-add notes, responsive grid with dark UI, search, edit, update, delete notes, OTP-based JWT + Google OAuth authentication, and seamless cross-device performance. Additionally introduced BullMQ for background processing to power email reminder system.
